UltraVision

Your New
Seaming Pliers

Because You Have A Clear View With Them

With our newly designed seaming pliers with a seaming window in the jaw, you can watch the sheet metal being bent. With the lasered millimeter scale, you can work with absolute precision and save time when measuring and marking. The seaming pliers now open and close permanently smoothly, thanks to the super strong stack joint.

Get the new UltraVision Seaming Pliers for your next construction site!
The bestsellers also in a practical roll-up bag!

SEAMING PLIERS

UltraVision Seaming Pliers,
Seaming-Window & Scale, Stack Joint

Application

Full view of the sheet metal:
For a better view when bending and
edging sheet metal!

Application & Benefits

- Revolutionary: Full view of the sheet metal thanks to the large seaming-window in the jaws.
- Fast: More precise work without marking with lasered millimeter scale.
- Smooth: But strong and resilient due to the stack joint.
- Ergonomic: Fits comfortably and securely in your hand.
- Lightweight: Weight saving thanks to the seaming-window and handle recess.
- Gentle on materials: Thanks to rounded plier edges.
- Durable: High-quality powder coating.
